Steeple Chaser: Standing on the Verge

Album release in 2005, with local sales of over 2000 units. Hit singles include - "Live That Way" and "Been There" both are getting regular radio play on **FREQ 107.1** as well as **Power 97** in Winnipeg

Our music is made from life stories we all have and should share. Allow us to share our music with you, and allow us to connect our music with your life. Throughout the years performing at many local venues we have picked up many fans numbering in the thousands. Always working on new exciting songs our fans have been able to return to our shows time and time again to hear our newest hits.

Steeple Chaser is enjoying positive public response to uploaded songs @ www.myspace.com/steeplechaser, the current fan favorite is "Live That Way" with over 20000 downloads. I have to say this is the music of the masses. Young and old, male and female alike can all enjoy our music together. You can feel a connection with our words and our band, making us the sound that will stick with you forever. As you listen to our music for the first time you already know that we are going to be one of your favorite bands of all time.

Gord Fry program manager/DJ for **Freq 107.1**

Out of all the local music they have in rotation, "Been There" after 3 months of airplay never got old and still receives regular requests for play 2 years later.

"Been There" is still in regular rotation on **Freq 107.1**

Steeple Chaser's music is a perfect blend of hard rock energy combined with pop's solid melodies and broad transparent emotion. With evocative vocals, a pounding rhythm section and instantly memorable grooves, the band's sure melodies and crackling guitars echo songs of passion and introspective style.

Formed in 1999, Steeple Chaser entered the Winnipeg club scene with a desire to both perform and wow audiences with their unique sound and dazzling live shows. The group quickly moved up the club-circuit ladder and ultimately won **Power 97 FM's "Next Big Thing" competition**. Their prize was to record at renowned Winnipeg recording facility, **Studio 11**.

The result was a successful four song EP entitled "Pilot" recorded with Grammy nominee and multiple Juno Award winning producer **Brandon Friesen**. With a new perspective and EP to pass on to the public, Steeple Chaser spent the next year performing, cross-Canada touring and perfecting a live show that speaks volumes beyond their independent contemporaries, constantly staying in the public eye and slowly but surely becoming a favorite among both fans and critics.

During the summer of 2003, Steeple Chaser was honored again by **Power 97 FM**. Including them on there very first "Class of 2003" CD featuring 5 of Manitoba's most promising acts. After maintaining 8 weeks atop the **Power Play Off** in March and April, their single "Radio Who" was added to the play list in mid June. It carried on with mid-high rotation throughout the summer and is still being played today.

After outstanding showcases at both **Canadian Music Week** and **Western Canadian Music week** in 2003 they are back in the studio with **Brandon Friesen** completing their much anticipated full length album.
